INTERNAL AND EXTERNAL FEEDBACK

Introduction

This report contains the activities that have been carried out by FIKK quality assurance in 2022-2023. The coordination flow for the implementation of quality assurance is regulated based on the Decree of the Rector of Surabaya State University Number 800 / UN38 / HK / KL / 2023 concerning the Determination of the Organizational Structure and Position Description of the Implementation of Quality Assurance at Surabaya State University that quality assurance at FIKK is carried out in two discs, namely SPMI and SPME. SPMI is carried out with quality audits conducted by Unesa's quality assurance team. Meanwhile, SPME is carried out by accreditation agencies in determining the feasibility of study programs, clusters, and universities to get accreditation levels both nationally and internationally.

In the implementation of SPMI, the Unesa Quality Assurance Agency determines the schedule and procedure for implementing quality assurance in all study programs. For this reason, in accordance with the existing guarantee workflow at Unesa, Unesa's SPMI activities in 2023 will be carried out according to the following schedule [link].

Internal	Monev Pemb	4/6/2023 14:19:42	afifanyulfadinata@unesa.ac.id	Afifan Yulfadinata, S.Pd., M.Pd.	Unesa Lecturer		Need socialization about the new RPS.
Internal	Monev Pemb	4/6/2023 14:20:45	afifanyulfadinata@unesa.ac.id	Afifan Yulfadinata, S.Pd., M.Pd.	Unesa Lecturer		It is necessary to re-regulate the schedule listed in SIAKADU.
Internal	Monev Pemb	4/6/2023 15:00:11	bima.19003@mhs.unesa.ac.id	Bima Firmansyah	Unesa Students		Related to these problems, at least there are reminders about assessing and returning the results of assignments from students. which reminds can be from the students themselves, especially PJs or maybe the supervision team related to learning in lectures.
Internal	Monev Pemb	4/6/2023 15:01:59	bima.19003@mhs.unesa.ac.id	Bima Firmansyah	Unesa Students		The existence of a special scheduling for UTS assessment is a solutive action, just apply it.
Internal	Monev Pemb	4/6/2023 15:06:40	bima.19003@mhs.unesa.ac.id	Bima Firmansyah	Unesa Students		Socialization about RPS is an important program. It is beneficial for lecturers, one of which can find out about measuring CPL / CPMK / Sub CPMK, if necessary held once a semester. This is so that learning in lectures becomes very focused.
Internal	Monev Pemb	4/6/2023 15:09:02	bima.19003@mhs.unesa.ac.id	Bima Firmansyah	Unesa Students		Looking at the facts in the field, several classes were combined into one and the lecture schedule did not match the one in the siakad. For this reason, the existence of regulations on lectures is very necessary, because so that learning is more conducive.
